

Librarian Report
January 2018

Sally Fishburn is halfway through the window restoration. We received an invoice for the second installment of \$7,000. I contacted the Preservation Trust of Vermont about the disbursement of our grant funds. As with last time, they are going to reimburse us for our payment. We will pay from our own budget and deposit \$7,000 check from PTV to ourselves.

A small child accidentally broke a window on the door. Thankfully, they weren't injured. I have contacted a window repair contractor in Stewartstown. I have not heard back but will contact another soon if no response.

A number of people have mentioned the success of the Alphabots LEGO robotics team at their state tournament when they came second in the coding section. They found the attention very encouraging and we begin meeting up next Tuesday for the next year.

Respectfully,
Craig Varley
